

## Customizable Textiles

**100% Cotton 10S/2x7S/2 44x36 Canvas 58"** 

This thick and durable fabric – that is non-translucent, even in single layers – is appropriate for tote bags and home textile products, such as couch covers.

**100% Cotton 20S/2x10S 96x38 Oxford 58"** 

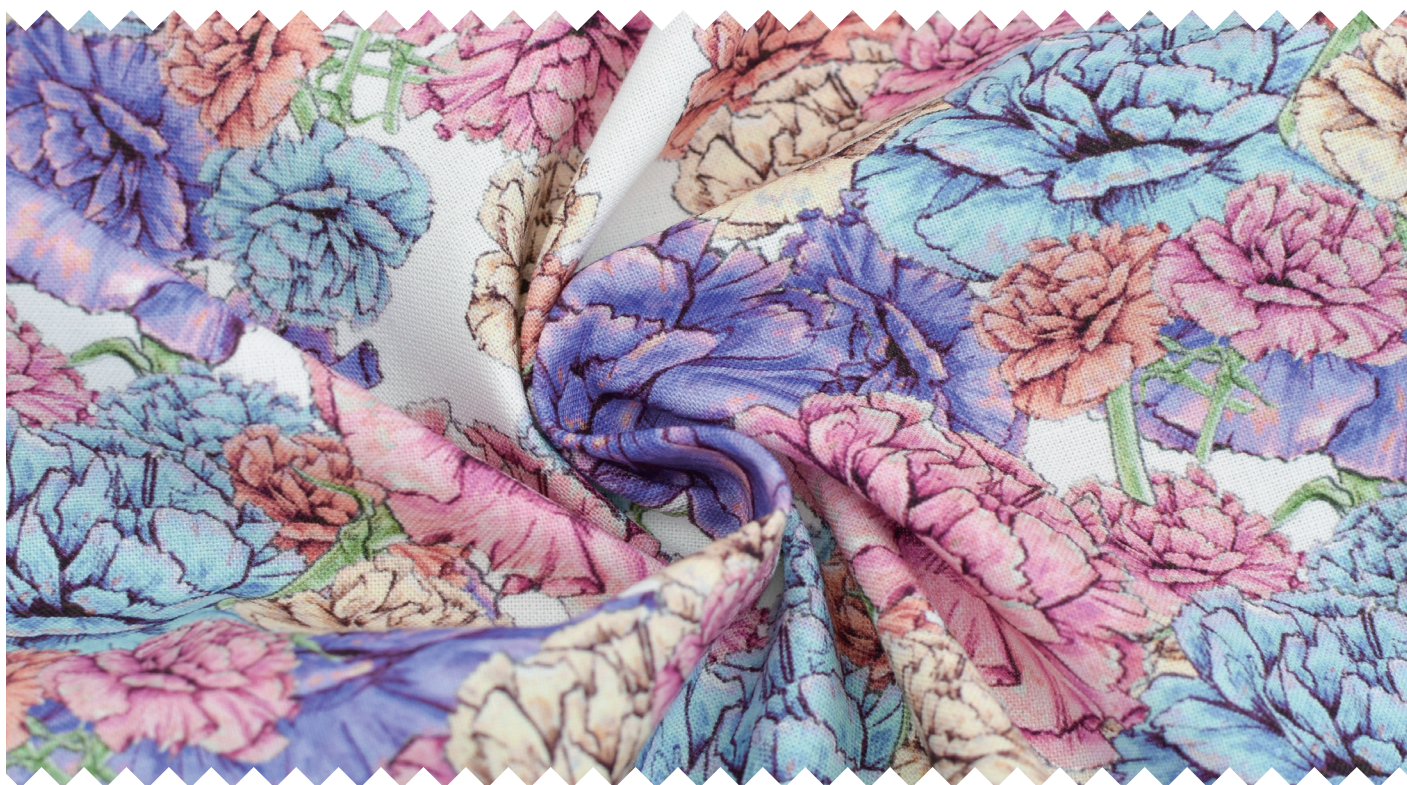

This, and our 20-count plain weave cotton fabric, are our most popular products. The Oxford is slightly thicker than our plain weave fabric, and is ideal for making cushion covers, aprons, and small pouches

**100% Cotton 20S/2x10S 96x38 Natural Oxford 58"** 

This 20-count plain weave textile was created free of bleach. The cotton seeds are visible in the fiber, giving a distinctive character and a light beige hue.

100% Cotton 20Sx20S 60x60 Quilting

44" 

56"

44" organic

This 20-count plain weave is our most versatile cotton fabric. Its thickness is suitable for embroidery and quilting, as well as making DIY home goods.

These fabrics are available in widths of 44" and 56" available. The 44" fabric can also be woven with 100% organic cotton thread, as approved by **GOTS (Global Organic Textile Standards)**. For our organic option, our dyeing and printing processes are GOTS-approved and certified organic. **(Note, if you require the certification documents, they will arrive 6 weeks post-order and come at a cost of 30 USD per item.)**

100% Cotton 30Sx30S 68x68 Sheeting

55" 

Given that it is slightly thinner than our 20-count plain weave fabric and slightly see-through, this is a perfect material for sewing light dresses and shirts for spring and autumn

100% Cotton 40Sx40S 90x70 Poplin 57"

This fabric is smooth, light, and soft to the touch – appropriate for dress shirts and spring dresses.

100% Cotton 40Sx40S 133x72 Twill 58"  
58" organic

This highly durable and soft textile is an excellent choice for making elegant bedding and children's wear.

We also have Twill available woven out of GOTS-certified 100% organic fiber. (Note, if you require the certification documents, they will arrive 6 weeks post-order and come at a cost of 30 USD per item.)

100% Cotton 60Sx60S 90x88 Lawn 55"

This loose, plain weave is soft and light to the touch. Because it is highly absorbent, it is an excellent material for handkerchiefs and napkins.

100% Cotton 60Sx60S 100x100 High-density 57"

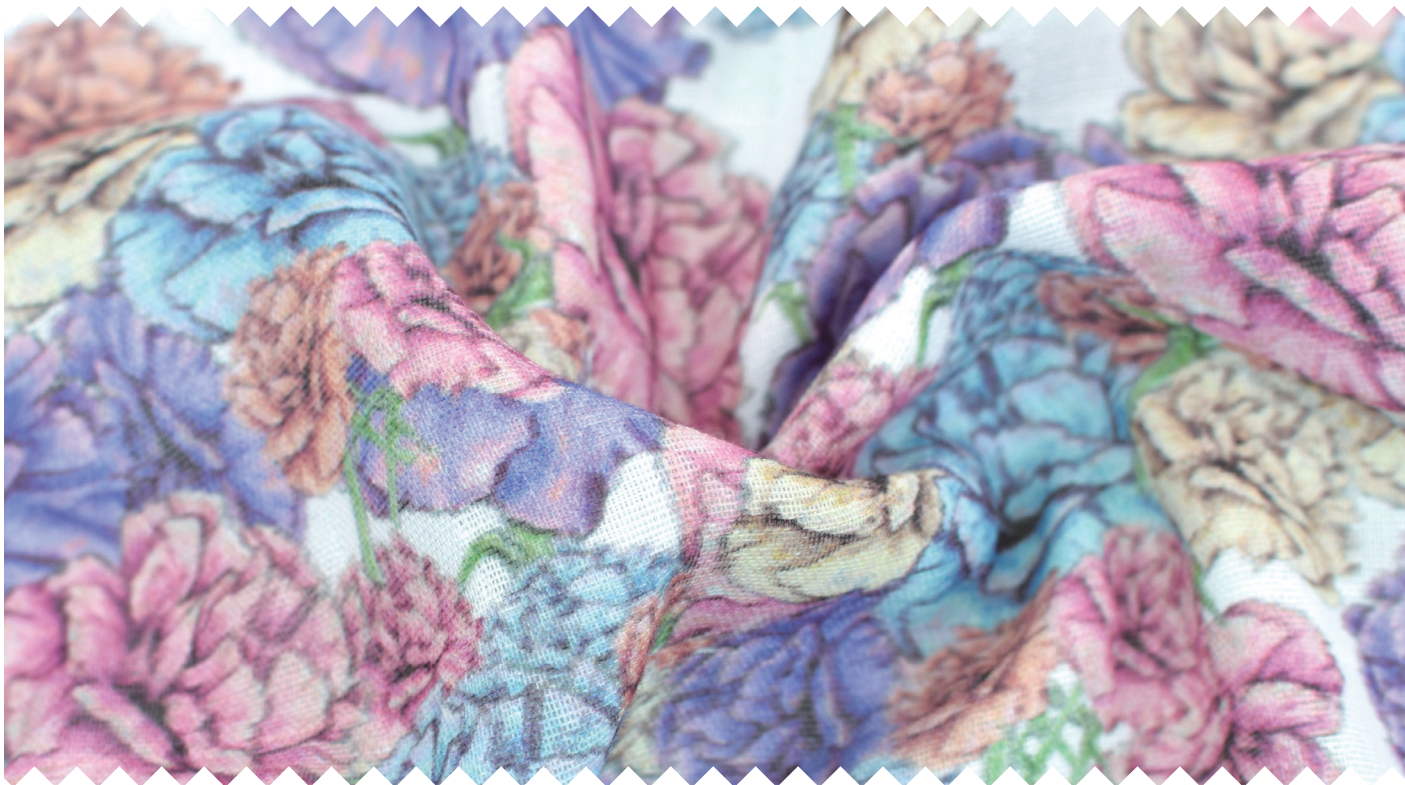

This densely-woven 60-count plain weave is more durable than our other 60-count plain weaves. The material is also less translucent than our 60s 90x88 lawn (listed above). It is a great choice for making summer dresses.

100% Cotton 60Sx60S 170x105 Satin 58"

This densely-woven satin is a pleasure to touch and is characterized by a slight luster. It is the ideal fabric for elegant bedding and is silky smooth, even though it is made from 100% cotton.

**100% Cotton Double Gauze Dobby 58"** ———

This double cloth is woven from two layers of gauze. The material is durable and non-translucent, despite being highly absorbent. The fabric features square patterns and is ideal for making baby blankets.

**GOTS-Certified 100% Organic Cotton Double Gauze 44"** ———

This double cloth gauze comes without square patterns. Its two layers of fabric are held together with fine, invisible stitches – allowing for a refined touch. Like our double gauze dobby, this material is excellent for baby blankets.

This fabric is woven from **GOTS-certified 100% organic** fibers, and our dyeing and printing processes for this organic option are also GOTS-approved. (**Note, if you require the certification documents, they will arrive 6 weeks post-order and come at a cost of 30 USD per item.**)

55% Linen + 45% Cotton 11Sx11S 50x38 55" —————

This is a popular choice for making goods for around the house, particularly given the aesthetic value of the natural beige hue.

55% Linen + 45% Cotton 20S/2x11S 96x38 58" —————

A smoother fabric than our 11-count linen, this material features less natural luster and allows for more detailed prints.

**100% Rayon 30Sx30S 68x68 Challis 56"**

The fine texture, silky touch, and very flowy drape of this rayon makes it perfect for women's wear, such as dresses and blouses.

**100% Rayon 40Sx40S 100x80 Poplin 56"**

This material is thinner, lighter, and softer than our 30-count rayon. The fabric is ideal for women's wear, such as dresses and blouses.

**97% Cotton + 3% P.U 40S Twill Span 44"**

This soft cotton fabric with the elasticity of spandex can be used for a variety of clothing, from loungewear to more formal apparel.

100% Polyester 76g/m<sup>2</sup> Chiffon 58"

This polyester chiffon is light, sheer, and drapes smoothly. It is most appropriate for women's wear and flowy trims, like ruffles and flounces.

100% Polyester 85g/m<sup>2</sup> CDC 58"

This is one of our most commonly used polyester fabrics because it drapes well. Given that it is slightly sheer and breezy, it is excellent for women's wear and flowy trims, like ruffles and flounces.

100% Polyester 94g/m<sup>2</sup> Silky Amunzen 58"

This fine fabric features tiny crinkles that are characteristic of Amunzen crepe weaves. Its light weight, silkiness, and unevenness make it an appropriate material for dresses and blouses.

100% Polyester 106g/m<sup>2</sup> **Rose Skin** 58"

This soft, luxurious polyester fabric has a medium thickness and is slightly sheer. It makes beautiful dresses and blouses.

100% Polyester 183g/m<sup>2</sup> **Peach Satin** 58"

This is an extremely soft polyester fabric with a lustrous, brushed surface. It is thick and non-translucent, making it appropriate for the shells of women's wear, such as jackets and thicker dresses.

100% Polyester 197g/m<sup>2</sup> **Heavy Twill** 58"

This non-translucent polyester twill weave is highly resistant to fading and wear. Quite thick, the material is suitable for making the shells of women's wear, such as jackets and thicker dresses.

100% Polyester 242g/m<sup>2</sup> **Peach Twill** 58" —————

This thick, extremely soft polyester fabric is highly dense, making it great for small home goods, such as pouches and cushion covers, as well as clothing.

100% Polyester 224g/m<sup>2</sup> **600D** 58" —————

This thick, firm fabric is lustrous and yet slightly rough to the touch, making it an ideal material for bags.
