ABOUT

Haerae Textile

Do you
Work with
Fabric?

Have you tried to make
**your own custom
design**, because
what you wanted was
unavailable?

This is an opportunity to access premium quality fabric while working with some of the most experienced and dependable textile experts worldwide. Haerae Co., Ltd is **GOTS (Global Organic Textile Standard) certified (Registration No: CU 849384)**.

Whether you are a small business owner, fashion designer, fabric wholesaler, or a creative 'maker' in need of superior textile prints, **Haerae Textile** has got you covered.

Unlike most other printers out there, our minimum order quantity (MOQ) is very low, meaning we offer a competitive price range that will match your needs and vision. Our services include a broad variety of options in cotton, linen, rayon, and polyester. To meet the demands of our clients worldwide, we also offer a user-friendly website that makes it seamless to submit and update your order online.

We look forward to working with you! In the meantime, do not hesitate to contact one of our friendly staff members at info@haerae.com, should you have any questions.

Sincerely,

Haerae Textile

PRODUCTS & SERVICES

1

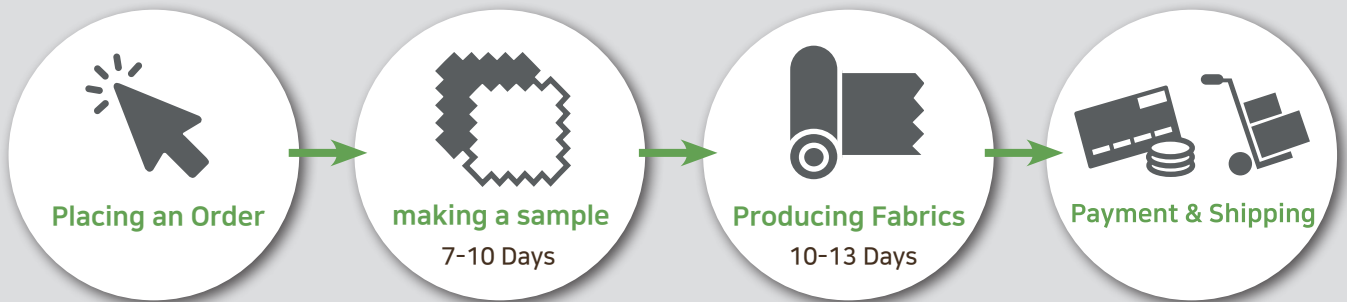

Cotton, Rayon, and Linen: Digital Printing

Digital printing is suitable for small orders and designs featuring many colors.

Our digitally-printed fabrics are soft to the touch, because we print fabric designs using reactive dyes.

Post-print, we process wash our fabrics to remove impurities. Next, we steam, tenter, and sanforize to minimize shrinkage and preserve the integrity of the design.

To place an order

Submit your order with a 300dpi PSD or Ai Vector seamless image file.

-To ensure color-matching, please use our fabric color chart for digital printing.

-Note, the maximum repeatable length is 2.5 yards.

Prior to production, we create and ship a sample for your approval (receipt will take 7 – 10 business days).

Once we receive your approval, we will fill you order (allow for another 10 – 13 business days).

We will then carefully inspect and inform you about the total output (up to a 10% tolerance).

*** For digital printing only, our charge is based on the total amount of fabric.**

For example, if you place an order of 100 yards and 5 designs using 100% cotton sheeting (30Sx30S 68x68), the price is 5.50 USD/yd. To secure this deal, each design must be at least 30 yards.

* USD per yard, EX-Work (Seoul, Korea) including fabric and processing costs.

* Orders below 30 yards: 100 USD (sample charge) + (Price [30-99yds] x yardage).
Note, for orders over 30 yards, the sample charge will be refunded.

Pricing for fabric provided by clients

Fabric	Width	Processing	1-29yds	30-99yds	100-299yds	300-499yds	above 500yds
Client's fabric	Max 60"	D.T.P	\$ 14.00	\$ 8.20	\$ 5.00	\$ 3.20	\$ 2.60

* USD per yard, EX-Work (Seoul, Korea) including processing costs only.

* Orders below 30 yards: 100 USD (sample charge) + (Price [1-29yds] x yardage).
Note, the sample charge will be refunded for orders over 30 yards.

* We request that our clients provide fabric by the roll. During the manufacturing process, approximately 10% loss will be applied.

2

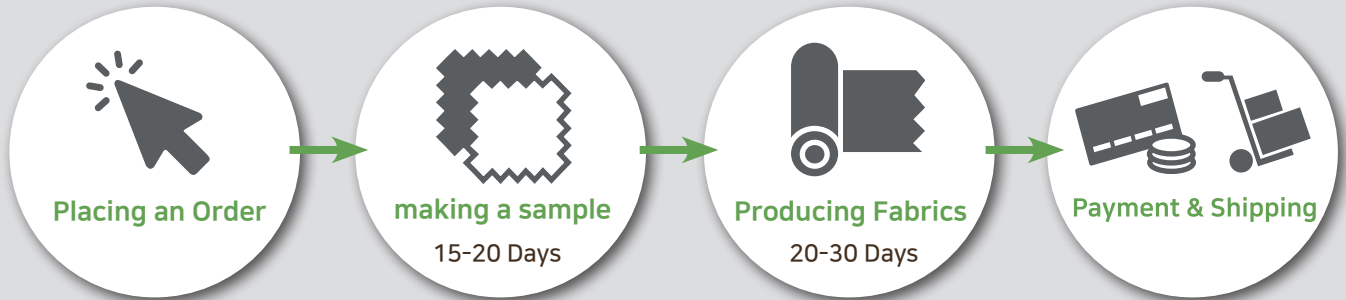

Cotton: Flatbed Screen Printing

The greatest benefit of **screen printing** is that it enables vivid colors, and clear shapes and images. Even though the MOQ is relatively high, we still enable our clients to customize premium quality fabrics at competitive prices.

We print using reactive dye, and then wash, steam, tenter, and sanforize to achieve superior results.

We also offer **transaction certificates for organic fabric orders** (for a handling charge of 30 USD).

To place an order

Submit your order with a 300dpi PSD or Ai Vector seamless image file.
- To ensure color-matching, please list your colors by referring to the Pantone TPG code.

- A seamless pattern should be repeatable on a 24" screen

Prior to production, we will create and ship a sample for your approval (allow 15 - 20 business days).

Once we receive your approval, we will fill you order (allow another 20 -30 business days).

We will then carefully inspect and inform you about the total output (up to a 10% tolerance).

* USD per yard, EX-Work (Seoul, Korea) including fabric and processing costs.

* Note, we produce 500yd orders and 1000yd orders through different processes. So, if you order 500 yds initially and re-order 1000 yds with the same design, please allow another 15-20 business days to complete the new sample

3

Sample Dyeing

We deliver fast, efficient, **custom-colored fabrics** within a few days. We also offer our customers the opportunity to use their own fabric for sample dyeing. Because our prices vary according to the material chosen and weight, please contact us to receive a custom quote.

To place an order

Please submit your order by referring to the colors in the Pantone TPG code, or provide us with a color sample swatch by mail.

We will then create and ship a sample of your dyed fabric (allow 2 - 4 business days).

Pricing

Fabric	Width	Processing	1-9yds	10-19yds	20-29yds	30-39yds	40-49yds	above 50yds

* USD per yard, EX-Work (Seoul, Korea) including fabric and processing costs.

* **Orders of less than 10 yards: 100 USD (sample charge) + (Price [1-9yds] x yardage) will be charged.**

* Note, the sample dyed fabric may have a color difference of +-5% saturation.

4

Cotton Dyeing

We provide unlimited beaker test (BT) samples to ensure perfect color-matching. Despite the fact that its MOQ is relatively high, we offer premium quality **customized solid color fabrics** at competitive prices. Post-treatment, we wash, steam, tenter, and sanforize. We can issue **transaction certification on organic fabric orders** (with a handling charge of 30 USD).

To place an order

Submit your order by referring to the colors in the Pantone TPG code, or providing us with a color sample swatch by mail.

We will then create and ship a B/T sample for your approval (allow 10 – 15 business days).

Once you approve of the B/T, we will produce your fabric (allow another 20 – 30 business days).

We will then carefully inspect and inform you about the total output (up to a 10% tolerance).

* Note, we produce 500yd orders and 1000yd orders through different processes. So, if you order 500yds initially, and re-order 1000yds of the same color, please allow another 10-15 business days to complete the new B/T.

5

Polyester Sublimation Printing

After printing mirror-images on specially-coated paper, it is transferred to the fabric through **sublimation thermal printing**. Because this process is efficient and does not require post-treatment, the production lead time is relatively short and there is no MOQ.

To place an order

Submit your order with a 300dpi PSD or Ai Vector seamless image file.
-To ensure color-matching, please use our fabric color chart for polyester sublimation printing.
-Note, the maximum repeatable length is 2.5 yards.

For orders **over 30 yards**, we will create and ship a sample for your confirmation (allow 2 - 3 business days).

Once you approve of the sample, we will produce the fabric (allow another 3 - 5 business days).

We will then mail the fabric to your shipping address.

If your order is **under 30 yards**, we will produce the fabric without first sending a sample (allow 3 - 5 business days).

6

Do you have Additional Post-Treatment Requirements?

To place an order

After you submit your order, please feel free to leave a comment about any additional post-treatments you require.

Expect another 10 - 15 business days for your custom fabric to be completed.

We will then update your order sheet manually with any additional charges.
