ABOUT

Haerae Textile

Do you Work with **Fabric?**

Have you tried to make
**your own custom
design**, because
what you wanted was
unavailable?

This is an opportunity to access premium quality fabric while working with some of the most experienced and dependable textile experts worldwide. Haerae Co., Ltd is **GOTS (Global Organic Textile Standard) certified (Registration No: CU 849384)**.

Whether you are a small business owner, fashion designer, fabric wholesaler, or a creative 'maker' in need of superior textile prints, **Haerae Textile** has got you covered.

Unlike most other printers out there, our minimum order quantity (MOQ) is very low, meaning we offer a competitive price range that will match your needs and vision. Our services include a broad variety of options in cotton, linen, rayon, and polyester. To meet the demands of our clients worldwide, we also offer a user-friendly website that makes it seamless to submit and update your order online.

We look forward to working with you! In the meantime, do not hesitate to contact one of our friendly staff members at info@haerae.com, should you have any questions.

Sincerely,

Haerae Textile

PRODUCTS & SERVICES

1

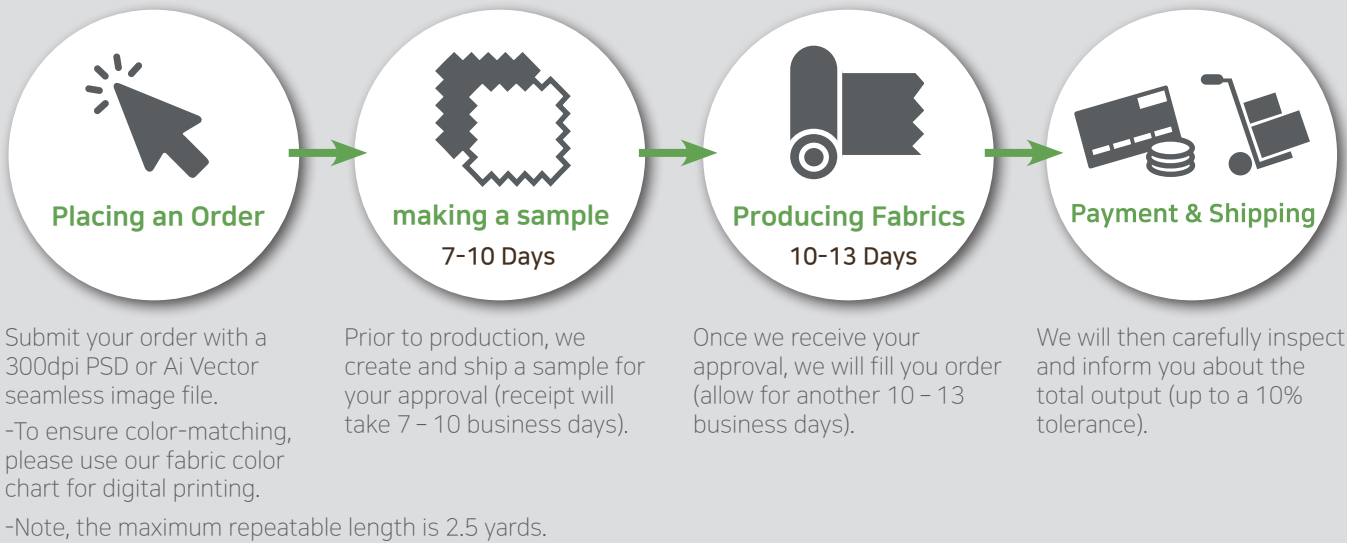

Cotton, Rayon, and Linen: Digital Printing

Digital printing is suitable for small orders and designs featuring many colors.

Our digitally-printed fabrics are soft to the touch, because we print fabric designs using reactive dyes.

Post-print, we process wash our fabrics to remove impurities. Next, we steam, tenter, and sanforize to minimize shrinkage and preserve the integrity of the design.

To place an order

*** For digital printing only, our charge is based on the total amount of fabric.**

For example, if you place an order of 100 yards and 5 designs using 100% cotton sheeting (30Sx30S 68x68), the price is 5.50 USD/yd. To secure this deal, each design must be at least 30 yards.

Pricing

- * USD per yard, EX-Work (Seoul, Korea) including fabric and processing costs.
- * Orders below 30 yards: 100 USD (sample charge) + (Price [30-99yds] x yardage).
Note, for orders over 30 yards, the sample charge will be refunded.

Pricing for fabric provided by clients

Fabric	Width	Processing	1-29yds	30-99yds	100-299yds	300-499yds	above 500yds
Client's fabric	Max 60"	D.T.P	\$ 14.00	\$ 8.20	\$ 5.00	\$ 3.20	\$ 2.60

- * USD per yard, EX-Work (Seoul, Korea) including processing costs only.
- * Orders below 30 yards: 100 USD (sample charge) + (Price [1-29yds] x yardage).
Note, the sample charge will be refunded for orders over 30 yards.
- * We request that our clients provide fabric by the roll. During the manufacturing process, approximately 10% loss will be applied.

2

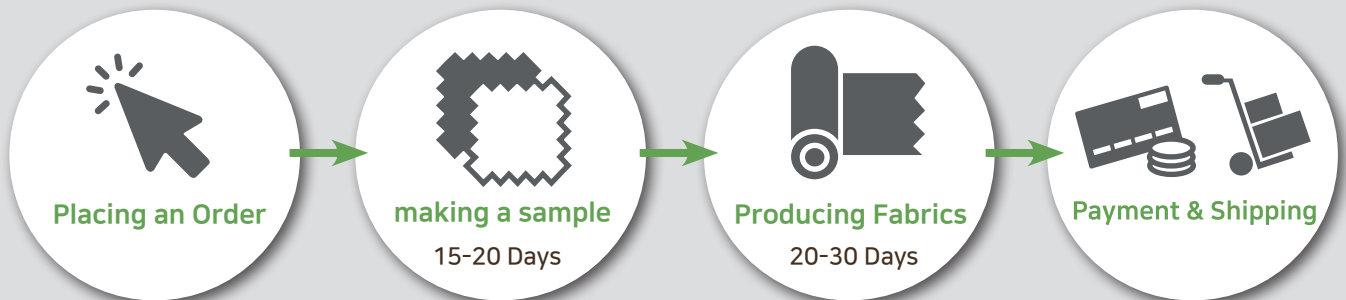

Cotton: Flatbed Screen Printing

The greatest benefit of **screen printing** is that it enables vivid colors, and clear shapes and images. Even though the MOQ is relatively high, we still enable our clients to customize premium quality fabrics at competitive prices.

We print using reactive dye, and then wash, steam, tenter, and sanforize to achieve superior results.

We also offer **transaction certificates for organic fabric orders** (for a handling charge of 30 USD).

To place an order

Submit your order with a 300dpi PSD or Ai Vector seamless image file.

- To ensure color-matching, please list your colors by referring to the Pantone TPG code.

- A seamless pattern should be repeatable on a 24" screen

Prior to production, we will create and ship a sample for your approval (allow 15 – 20 business days).

Once we receive your approval, we will fill you order (allow another 20 –30 business days).

We will then carefully inspect and inform you about the total output (up to a 10% tolerance).

* USD per yard, EX-Work (Seoul, Korea) including fabric and processing costs.

* Note, we produce 500yd orders and 1000yd orders through different processes. So, if you order 500 yds initially and re-order 1000 yds with the same design, please allow another 15-20 business days to complete the new sample

3

Sample Dyeing

We deliver fast, efficient, **custom-colored fabrics** within a few days. We also offer our customers the opportunity to use their own fabric for sample dyeing. Because our prices vary according to the material chosen and weight, please contact us to receive a custom quote.

To place an order

Please submit your order by referring to the colors in the Pantone TPG code, or provide us with a color sample swatch by mail.

We will then create and ship a sample of your dyed fabric (allow 2 – 4 business days).

Pricing

* USD per yard, EX-Work (Seoul, Korea) including fabric and processing costs.

* **Orders of less than 10 yards: 100 USD (sample charge) + (Price [1-9yds] x yardage) will be charged.**

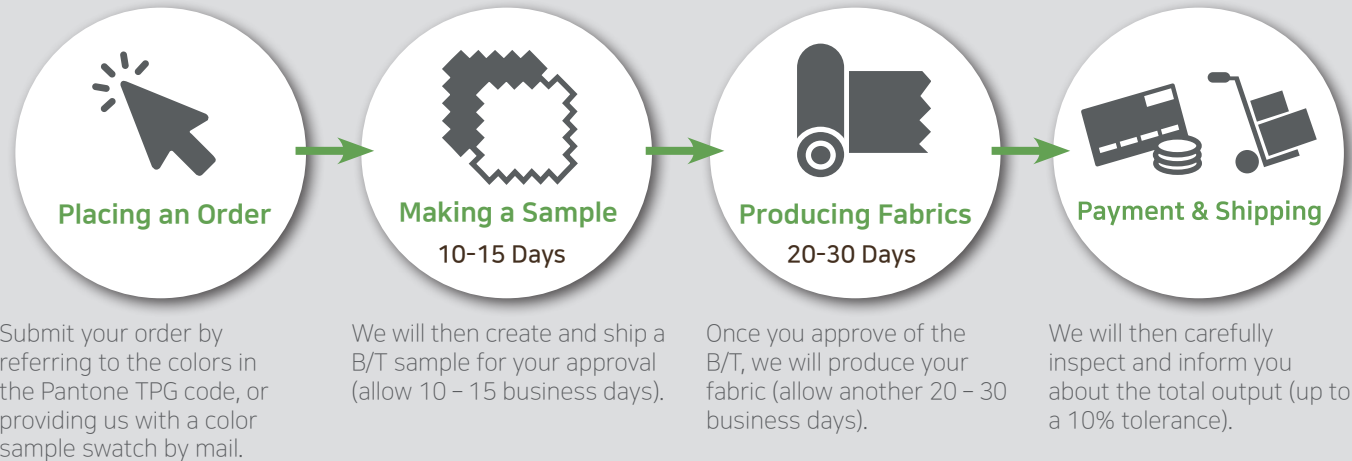

* Note, the sample dyed fabric may have a color difference of +-5% saturation.

4

Cotton Dyeing

We provide unlimited beaker test (BT) samples to ensure perfect color-matching. Despite the fact that its MOQ is relatively high, we offer premium quality **customized solid color fabrics** at competitive prices. Post-treatment, we wash, steam, tenter, and sanforize. We can issue **transaction certification on organic fabric orders** (with a handling charge of 30 USD).

* Note, we produce 500yd orders and 1000yd orders through different processes. So, if you order 500yds initially, and re-order 1000yds of the same color, please allow another 10-15 business days to complete the new B/T.

5

Polyester Sublimation Printing

After printing mirror-images on specially-coated paper, it is transferred to the fabric through **sublimation thermal printing**. Because this process is efficient and does not require post-treatment, the production lead time is relatively short and there is no MOQ.

To place an order

Submit your order with a 300dpi PSD or Ai Vector seamless image file.
-To ensure color-matching, please use our fabric color chart for polyester sublimation printing.
-Note, the maximum repeatable length is 2.5 yards.

For orders **over 30 yards**, we will create and ship a sample for your confirmation (allow 2 – 3 business days).

Once you approve of the sample, we will produce the fabric (allow another 3 – 5 business days).

We will then mail the fabric to your shipping address.

If your order is **under 30 yards**, we will produce the fabric without first sending a sample (allow 3 – 5 business days).

Customizable Textiles

100% Cotton 10S/2x7S/2 44x36 Canvas 58" 

This thick and durable fabric – that is non-translucent, even in single layers – is appropriate for tote bags and home textile products, such as couch covers.

100% Cotton 20S/2x10S 96x38 Oxford 58" 

This, and our 20-count plain weave cotton fabric, are our most popular products. The Oxford is slightly thicker than our plain weave fabric, and is ideal for making cushion covers, aprons, and small pouches

100% Cotton 20S/2x10S 96x38 Natural Oxford 58" 

This 20-count plain weave textile was created free of bleach. The cotton seeds are visible in the fiber, giving a distinctive character and a light beige hue.

100% Cotton 20Sx20S 60x60 Quilting

44"

56"

44" organic

This 20-count plain weave is our most versatile cotton fabric. Its thickness is suitable for embroidery and quilting, as well as making DIY home goods.

These fabrics are available in widths of 44" and 56" available. The 44" fabric can also be woven with 100% organic cotton thread, as approved by **GOTS (Global Organic Textile Standards)**. For our organic option, our dyeing and printing processes are GOTS-approved and certified organic. (Note, if you require the certification documents, they will arrive 6 weeks post-order and come at a cost of 30 USD per item.)

100% Cotton 30Sx30S 68x68 Sheeting

55"

Given that it is slightly thinner than our 20-count plain weave fabric and slightly see-through, this is a perfect material for sewing light dresses and shirts for spring and autumn

100% Cotton 40Sx40S 90x70 Poplin 57"

This fabric is smooth, light, and soft to the touch – appropriate for dress shirts and spring dresses.

100% Cotton 40Sx40S 133x72 Twill 58"
58" organic

This highly durable and soft textile is an excellent choice for making elegant bedding and children's wear.

We also have Twill available woven out of GOTS-certified 100% organic fiber. (Note, if you require the certification documents, they will arrive 6 weeks post-order and come at a cost of 30 USD per item.)

100% Cotton 60Sx60S 90x88 Lawn 55"

This loose, plain weave is soft and light to the touch. Because it is highly absorbent, it is an excellent material for handkerchiefs and napkins.

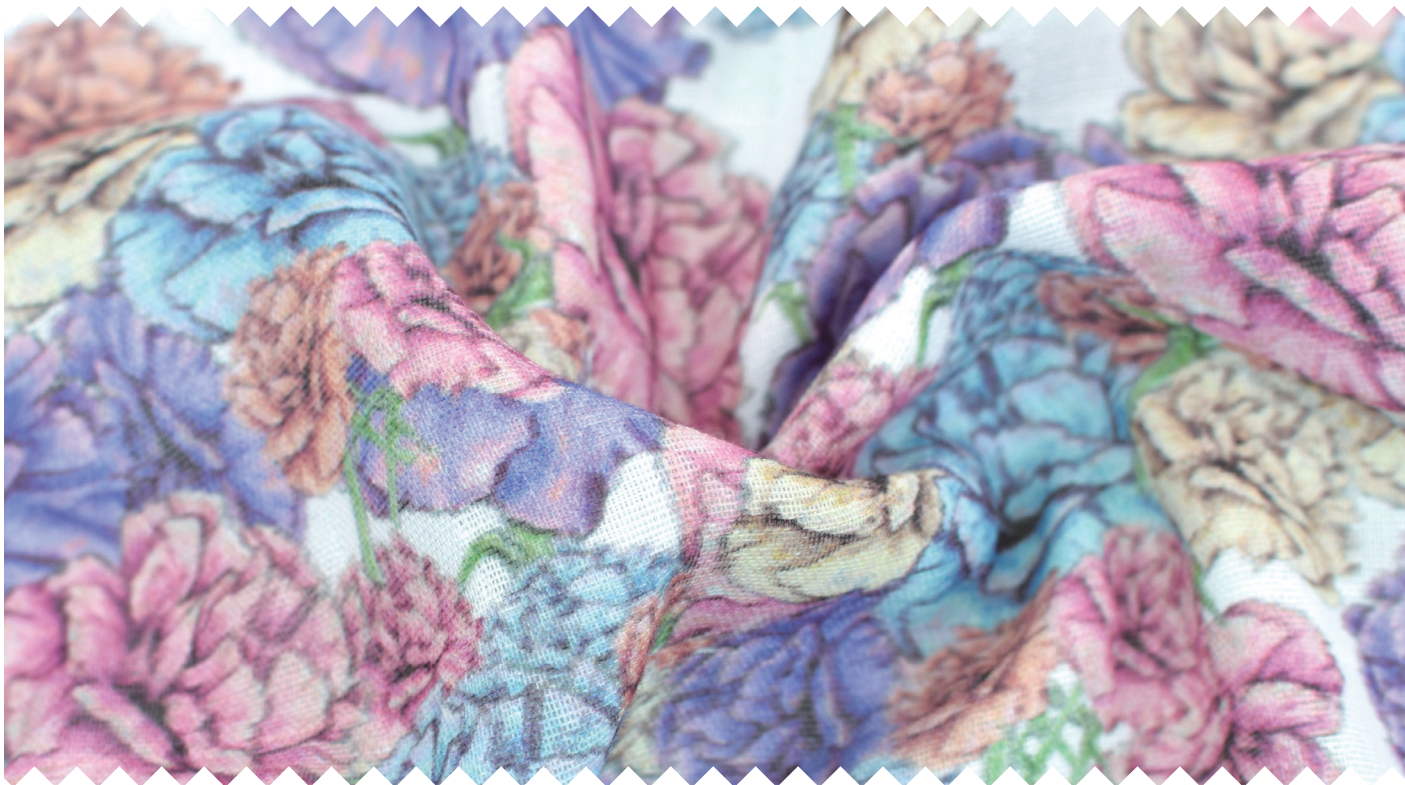

100% Cotton 60Sx60S 100x100 High-density 57"

This densely-woven 60-count plain weave is more durable than our other 60-count plain weaves. The material is also less translucent than our 60s 90x88 lawn (listed above). It is a great choice for making summer dresses.

100% Cotton 60Sx60S 170x105 Satin 58"

This densely-woven satin is a pleasure to touch and is characterized by a slight luster. It is the ideal fabric for elegant bedding and is silky smooth, even though it is made from 100% cotton.

100% Cotton Double Gauze Dobby 58" ———

This double cloth is woven from two layers of gauze. The material is durable and non-translucent, despite being highly absorbent. The fabric features square patterns and is ideal for making baby blankets.

GOTS-Certified 100% Organic Cotton Double Gauze 44" ———

This double cloth gauze comes without square patterns. Its two layers of fabric are held together with fine, invisible stitches – allowing for a refined touch. Like our double gauze dobby, this material is excellent for baby blankets.

This fabric is woven from **GOTS-certified 100% organic** fibers, and our dyeing and printing processes for this organic option are also GOTS-approved. (**Note, if you require the certification documents, they will arrive 6 weeks post-order and come at a cost of 30 USD per item.**)

55% Linen + 45% Cotton 11Sx11S 50x38 55" 

This is a popular choice for making goods for around the house, particularly given the aesthetic value of the natural beige hue.

55% Linen + 45% Cotton 20S/2x11S 96x38 58" 

A smoother fabric than our 11-count linen, this material features less natural luster and allows for more detailed prints.

100% Rayon 30Sx30S 68x68 Challis 56" —————

The fine texture, silky touch, and very flowy drape of this rayon makes it perfect for women's wear, such as dresses and blouses.

100% Rayon 40Sx40S 100x80 Poplin 56" —————

This material is thinner, lighter, and softer than our 30-count rayon. The fabric is ideal for women's wear, such as dresses and blouses.

97% Cotton + 3% P.U 40S Twill Span 44" —————

This soft cotton fabric with the elasticity of spandex can be used for a variety of clothing, from loungewear to more formal apparel.

100% Polyester 76g/m² Chiffon 58"

This polyester chiffon is light, sheer, and drapes smoothly. It is most appropriate for women's wear and flowy trims, like ruffles and flounces.

100% Polyester 85g/m² CDC 58"

This is one of our most commonly used polyester fabrics because it drapes well. Given that it is slightly sheer and breezy, it is excellent for women's wear and flowy trims, like ruffles and flounces.

100% Polyester 94g/m² Silky Amunzen 58"

This fine fabric features tiny crinkles that are characteristic of Amunzen crepe weaves. Its light weight, silkiness, and unevenness make it an appropriate material for dresses and blouses.

100% Polyester 106g/m² **Rose Skin** 58"

This soft, luxurious polyester fabric has a medium thickness and is slightly sheer. It makes beautiful dresses and blouses.

100% Polyester 183g/m² **Peach Satin** 58"

This is an extremely soft polyester fabric with a lustrous, brushed surface. It is thick and non-translucent, making it appropriate for the shells of women's wear, such as jackets and thicker dresses.

100% Polyester 197g/m² **Heavy Twill** 58"

This non-translucent polyester twill weave is highly resistant to fading and wear. Quite thick, the material is suitable for making the shells of women's wear, such as jackets and thicker dresses.

100% Polyester 242g/m² **Peach Twill** 58" —————

This thick, extremely soft polyester fabric is highly dense, making it great for small home goods, such as pouches and cushion covers, as well as clothing.

100% Polyester 224g/m² **600D** 58" —————

This thick, firm fabric is lustrous and yet slightly rough to the touch, making it an ideal material for bags.
